

Vital information for your business needs**Why not help yourself to free online business information?**

Did you know you can help yourself to a host of free business information via your local Essex library? We subscribe to a number of electronic business resources ranging from company information and market research to legislation and British Standards.

If you are looking for market research, we can offer **Keynote Market Research** which provides access to over 380 up-to-date market research reports covering 27 UK market sectors. The keyword search facility allows for cross searching of all the reports. We also subscribe to **Marketline Business Information Centre**, giving access to 2500 market reports at global, regional and country level. There are company profiles for 10,000 of the world's major companies and 2000 SWOT analyses.

You can augment these by searching our databases of Newspapers and Magazines online. Newspapers online provides full text of 10 daily and Sunday newspapers - right up to yesterday's issue. Magazines online has full text articles and abstracts searchable by keyword from a selection of popular and specialist titles.

For information on competitors, suppliers, or any other company you are interested in, try **Hoovers Company Information from Dun & Bradstreet**. You can search for information on 2.2 million UK companies, access 830,000 in depth reports plus catch up on key business news. **Kompass** is excellent for finding suppliers of products or services worldwide; it provides data on more than 1.85 million companies in over 64 countries.

If you need information on another country, or are planning a business visit, we offer **EIU Country Reports** with up-to-date profiles and reports for over 200 countries providing invaluable information for exporters.

Many products and services are covered by a British Standard and with **British Standards Online** you can view the full text of the publications of the British Standards Institute.

Knotty legal problems may be helped by consulting **Lexis Nexis** which combines the full and up to date text of UK case law, acts of Parliament and statutory instruments.

In addition, in our four main libraries (*Chelmsford, Basildon, Colchester and Harlow*) you can access **Cobra – Complete Business Reference Adviser**. Invaluable for the start-up or established business, Cobra gives you access to hundreds of business opportunity profiles and business information factsheets. There are also detailed market synopses, local area profiles, an events and exhibitions diary and further sources of UK business information and support.

Vital information for your business needs

You can even access Kompass, British Standards and Newspapers and Magazines online from your own computer remotely via our website at www.essex-business.info

Of course, if you don't have time you can always contact the Business Information Service direct. We offer a wide range of resources to help those doing business or thinking of doing business in Essex.

We can provide information on starting-up, companies and markets, legislation, finance, doing business in Europe and beyond. You can order a mailing list or a credit check, request tender information or market research. We can provide a tailor-made business start-up pack and even register your new company.

We provide a fast, accurate and confidential service, seven days a week. All services are either free or charged at very competitive rates.

To request more information on these resources or any of our services, please contact us on 01245 492535 or email: business.information@essexcc.gov.uk
